SESSION NOTES:

Meet our litter of Cavapoos, the ultimate little heart, stealers with fluff for days and personalities to match. These curly coated cuties are a perfect mix of playful energy and cuddle obsession, always ready for an adventure... or a nap on your lap (preferably both).

With their big, soulful eyes and teddy bear looks, they have a special talent for getting away with absolutely everything. One minute they're bouncing around like tiny clouds with zoomies, the next they're melting into you like they were made purely for snuggles.

Cavapoos are friendly with just about everyone they meet, they're affectionate, gentle, and just a little bit cheeky, bringing constant joy, wagging tails, and a whole lot of love wherever they go. This will be their second weekend with us, so we expect them to be even more confident and playful... while still enjoying plenty of cuddles and sleepy afternoon snuggles.
