SESSION NOTES:

Meet our delightfully chaotic squad: three English Bulldogs and 6 fluffy French Bulldogs, joining forces like the most adorable, snorty little gang you've ever seen.

The English Bulldogs bring the heavyweight charm, slow waddles, serious faces, and a talent for lounging like royalty who absolutely refuse to rush for anything except snacks. Meanwhile, the fluffy Frenchies are the energetic sidekicks, bouncy, expressive, and always ready to stir up just a little bit of mischief.

Together, they're a perfect balance of chill and chaos. Expect a symphony of snorts, dramatic sighs, and the occasional zoomie explosion, followed by an immediate group nap like nothing ever happened.

It's less of a group... and more of a bulldog convention, full of wrinkles, fluff, attitude, and an unreasonable amount of personality packed into nine very lovable bodies

SESSION NOTES:

Meet our litter of 7 Cavapoos, the ultimate little heart, stealers with fluff for days and personalities to match. These curly coated cuties are a perfect mix of playful energy and cuddle obsession, always ready for an adventure... or a nap on your lap (preferably both).

With their big, soulful eyes and teddy bear looks, they have a special talent for getting away with absolutely everything. One minute they're bouncing around like tiny clouds with zoomies, the next they're melting into you like they were made purely for snuggles.

Cavapoos are friendly with just about everyone they meet, they're affectionate, gentle, and just a little bit cheeky, bringing constant joy, wagging tails, and a whole lot of love wherever they go.
